"Judge" got off a good thing when it said that, immediately after becoming engaged to Phoebe Couzins, Senator Fair went home and died, but it was a little rough on Phoebe all the same.

The Independent kindly informs us that the rear wall of the Opera House will have to be rebuilt. Considering that there is little or nothing left of the wall, that fact ought to be apparent even to an unobservant mind.

In view of the heavy license exacted from liquor dealers their petition to the Councils for remuneration for losses sustained by the closing of their establishments during the period martial law was in force is at least entitled to consideration before being put through the usual pigeon-hole process.

The question has been asked and asked repeatedly, "where is the necessity of secret sessions of the Councils?" Sooner or later, and generally the former, the matters discussed before that body are made public, and as far as the secrecy maintained the meetings might as well be held on Union Square.

The letter presented to the Executive and Advisory Councils by Commissioner Hawes is one that demands very serious consideration before any action is taken. A thorough examination of the facts as set forth in the affidavits of Rickard and Walker will undoubtedly be made before any definite answer is given.

A contemporary suggests that this community should assist by voluntary contributions in rebuilding the opera house. We beg to differ. Had the building belonged to poor people and been uninsured we would be in favor of the proposition and cheerfully contribute our mite towards it, but the contrary being the case we are decidedly opposed to it. The people of Honolulu contribute all that is necessary to the support of the opera house when they pay the price of admission, which for a second class house is the same as that charged at first-class theatres in other parts of the world. When the people of Honolulu patronize as liberally as they did a company like that recently brought here by manager Dailey and pay a dollar a seat we think it does enough. Within the knowledge of the writer the majority of the Dailey company have given better performances than were given here to audiences which paid ten, fifteen, twenty and thirty cents for a seat.

There are two sides to every question, even to the Hawaiian one, which many people forget and which the editor of the Advertiser has evidently forgotten. That such a vile attack as is made on Captain Julius A. Palmer in this morning's issue should have been allowed to enter the columns of a decent newspaper is a source of wonder to the whole community. The editor of the Advertiser is paid so much per month to run his paper in the interest of the present government and incidentally of the stockholders, and it is needless to say he has to obey orders or some other individual will be imported from Kamchatka or some other cold country to take his place. On the other hand Captain Julius A. Palmer comes here duly accredited as the special correspondent of the New York Post, a journal which compares with the Advertiser as an elephant does to a gnat and which has more readers in one day than there are people in the Hawaiian Islands. His orders were to write to his paper a description of the situation here as he found it. He has done so. Whether he was right or wrong has nothing to do with the case. He had an equal right with the editor of the Advertiser to earn his money, and in so doing should at least have received that common courtesy which has seldom been refused from one journalist to another.

**Suits Against McDowell.**

The civil suits of men who worked under Captain McDowell in the vain attempt to float the S. S. Miowera when she was on the reef outside Honolulu harbor, crop up occasionally in the District Court, notwithstanding the fact that in each case judgment has been awarded the defendant. August Sthrom brought suit for \$24 wages on Monday against W. F. Wilson, A. Cockburn and A. McDowell. Judgment was again given defendants and an appeal was noted.

**A Live Correspondent**

Press correspondents were rushing about to-day in search of news, of which they got little. Most of them made much of the letter presented to the Councils yesterday by the British Commissioner. It may be of interest to them, if not to the general public, to know that the substance of the matter was telegraphed to New York by the live correspondent of the Post and has doubtless appeared in that paper ten days since.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden Drug Store and procured a bottle of it. It gave Mr. Carter prompt relief and I can vouch for its having cured me." For sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

**Timely Topics**

May 7, 1895.

Yesterday witnessed one of the quietest elections ever held in Honolulu or elsewhere. It was a good deal like some of the elections in the South American republics where you always vote the government ticket or stay away from the polls. Although only 111 votes were cast, that number was even larger than was expected.

Talking about the election, however, reminds us that we have just received a novelty in the shape of a newly invented can opener, which is simplicity itself. It is called the A. B. C., and we are the only firm handling them. This can opener is different to any other in use. It takes the entire top of the can off with a single turn of the wrist. All you have to do is to lay the machine on the top of the can, strike a little wooden knob similar to those used in opening soda-water bottles and the can opener does the rest. There is no possibility of injuring the hands or losing your temper.

Did we hear anyone call out "rats?" We thought we did, and that brings to our mind another novelty in the shape of a French rat trap. This is a family concern and will accommodate whole families of these pestiferous rodents. Mr. Rat walks into the trap until he reaches a little platform which gives way under his weight and he is caught before he knows where he is, being landed in an entirely different compartment to that which he first entered. Mrs. Rat follows to see what the old man was doing out so late at night and soon joins him. We have caught ten rats in one night in one of these traps. They must be seen to be appreciated.

This warm weather makes one think of ice-cream and an ice-cream freezer that will suit a small family is a desideratum. We have just imported a new style of freezer which cannot fail to commend itself by its usefulness. It is provided with a heavy cap which fits tightly over the receptacle holding the cream, and is so constructed as to require less ice, less salt and less time in freezing. If you want one of these ask for the Gem. It is a gem and we guarantee it.

**Havana Flats**

is the latest novelty in cigars. This is a perfectly flat cigar. The filler is Havana of a very high grade and laid in, like the sheets of a book, in the same way as cigars that cost \$150.00 per thousand. The outside appearance of the cigar conforms to the filler, and is perfectly flat. Those of our cigar customers who have sampled them pronounce the Havana Flats of excellent quality and of unique and attractive shape.

**Havana Cigars**

by reason of their superior quality and name are usually sold at high prices. We have an excellent line of these cigars direct from Havana. While the quality of these cigars is at the top-notch our prices have been scaled down to bring these popular cigars within the reach of all.

**Manila Cigars**

need very little said in their praise, for they are well known here to every smoker. It would be difficult to get a better cigar for the price at which Manilas are sold. We allow no one to undersell us in this line. We compete with any nationality. Remember that when looking for Manila Cigars.
